

BODY SAFETY APP

VISION 2030

SAFE INDIA, HAPPY INDIA

FOR A BETTER FUTURE

Most efforts at educating children are aimed at coursework and do not value education. As APJ Abdul Kalam said, "You cannot change the future, but you can change your habits, and your habits will surely change your future". To make the future better for children, we have launched an app on Body safety, First-of-itskind game for children

The App, the first of its kind in the world, is about Body Safety for children, designed in line with the United Nations Sustainable Development Goal 3 and Goal 4.

The Body Safety game is an interactive and educative game conceived by Tejobarath. It strives to educate children about child sex abuse in an agesensitive and gender-neutral manner under its initiative VISION 2030 SAFE INDIA HAPPY INDIA – "safe childhood is our birthright."
